

Memorandum

To: Kim Rybold, Associate Planner, City of Wilsonville
From: Li Alligood, Senior Planner
Copies: File
Date: January 28, 2019
Subject: Revisions to Stafford Meadows Street Trees
Project No.: 18968/18806

The City's approvability comments on the Frog Pond Meadows land use submittal noted conflicts between the proposed Frog Pond Meadows utilities and the proposed street trees on the east side of Marigold Street within the Stafford Meadows subdivision.

To resolve the conflicts, the utilities were shifted to avoid conflicts with the street trees and the location of the street trees was revised to avoid the utilities. The revised street trees are shown on Sheet L2.0 of the January 21, 2019, Stafford Meadows plan set.

These trees are not located on the Frog Pond Meadows project site and are not being counted toward mitigation for trees removed through the Frog Pond Meadows application.
