Hello

My wife and I live in the Morgan farm Phalish Home Development. I am extremely concerned about the plan to route traffic through our neighborhood on Sherman Drive to get into the parking lot.

The thought of Sysco trucks, garbage trucks, vendors of all sorts plugging up the only entrance into our neighborhood is very upsetting.

I've seen the design and there's no reason all this traffic can't be routed down the other side of the school along Willow Creek rd. I'm also asking you to reconsider this design... Also, please do something to keep noise down along Sherman road like a wall or thick shrubs.

It will be noisy all hours of the day for people living along Sherman. It's just not right...

We knew there was a school going in when buying the home we just didn't know the design from the architect was what I personally see as poor use of the surrounding roads.

Please reconsider this... love the school, we just don't easy noise and traffic disrupting our everyday life.
